

To Our Valued Clients,

The following 2022 pool opening information sheet is intended to ensure a smooth opening experience.

For the safety of our customers and our staff this spring, we ask clients to remain indoors when we are on site servicing their backyard. For any questions or concerns regarding your service or our procedures surrounding Covid-19 safety, please email [service@poolcraft.ca](mailto:service@poolcraft.ca) or contact us at (905)-884-2720.

**To prevent unnecessary costs and delays in your pool opening experience, please be sure to read the following summary which outlines:**

- A. Pool Craft’s Gold Opening Package Details.
- B. Important details related to what you need to know **BEFORE** your pool opening.
- C. Important details related to what you need to know **AFTER** your pool opening.

Heater start-up & service		✗ \$165 + hst

## WHAT YOU NEED TO KNOW BEFORE YOUR POOL OPENING

### SCHEDULE YOUR OPENING DATE (905-884-2720, [service@poolcraft.ca](mailto:service@poolcraft.ca))

Please note that every pool opening is unique and completion times may vary. We are only able to provide you with appointment dates, not specific appointment times or windows. With this in mind, please note that it isn't necessary for customers to be home at the time of opening so you won't have to worry about waiting around for our crews to show up.

When booking your opening, please be sure to detail which extra services you would like us to provide (e.g. pool vacuuming, heater service etc.). This will help us significantly with planning your opening and showing up prepared for exactly what you have requested.

**Victoria Day long weekend is a popular time for pools to be opened so be sure to schedule your pool opening no later than May 1<sup>st</sup>, 2022, to ensure your pool is operational for this weekend!**

Pool Craft will do their best to ensure your pool is operational for the long weekend. However, if repairs are required, availability of parts could impact the operation of your pool. Please be assured that during this time, we will give priority to getting your pool operational.

### BEFORE OUR ARRIVAL

Pool Craft will send you an email 1- 2 days before your scheduled opening as a reminder. For your pool opening appointment to go smoothly, we will need your help with the following:

**ACCESS:** Please unlock any gates or doors so our crew has access to the pool and pool Equipment. If you have keys or combination locks please give the code or location of key to the office.

**WATER:** Please have the outside water turned on. Our crew will require a working hose and water to properly complete the pool opening.

**PARTS:** Please leave all your pool parts, drain plugs, baskets, jets, ladders etc. accessible for our opening crew.

**POWER:** If you have breaker panels inside your home that control the outside pool equipment our crews will require them to be turned on.

**CLEAN YARDS:** To perform the opening safely and properly our crews require the backyard to be clean. For dog owners, please ensure you have cleaned up after your dog before our arrival.

## **HEATER START-UP, CLEANING AND SERVICE**

Cost for a heater start-up by a licensed gas fitter is \$165 + HST. This occurs 1-3 days after the pool opening. By law, the homeowner or a licensed gas fitter are the only two parties who can touch the pool heater therefore, our opening crews cannot start the heaters. This service will only be scheduled upon request so be sure to note this when booking your opening.

If your heater requires repairs, a return trip is needed and/or and it cannot be started: you will be charged for the service call and be quoted separately for the necessary repairs. All repairs and pricing must be confirmed by the customer before any work is scheduled and authorized by Pool Craft. This eliminates any billing confusion for our customers and ensures the work is scheduled in a timely manner.

Please contact the office for pricing on heater cleaning.

## **WHAT YOU NEED TO KNOW AFTER THE POOL OPENING**

### **OPENING CHECKLIST:**

Upon completion of the opening, you will be emailed an "Opening Checklist". This checklist will give a summary of what was done.

### **SERVICE & REPAIRS:**

Any service or pool repairs that you require will not be done at the time of the opening. If the opening crew finds any items that require service, the issues will be detailed on your "opening checklist" and our office will contact you to schedule a follow-up appointment.

### **TIME TO FILL & START THE POOL:**

To ensure your pool gets started, it is the homeowner's responsibility to fill the pool to the proper start-up level. As a measure of safety, we do not leave hoses running in pools unattended. Pool Craft will start up your pool at time of the opening provided your pool has a dedicated main drain line, the water level is at the appropriate start up level and there are no service issues with the pool equipment. For pools that are not able to be started at the time of the opening Pool Craft can return to start up your pool at an additional cost of \$85 plus HST. Included in the start-up is a test and balance of the water. For more complex pools that have automation and/or water features, an advanced start up can be booked at a cost of \$99 + HST. This would include the programming and set up of pool automation, checking and testing of all water features as well as everything included in the standard start up. Please note that balancing chemicals needed to adjust pool water will be billed additionally if applicable.

You can contact us to book a start-up or start the pool yourself.

**PLATINUM CUSTOMERS:** receive an initial vacuum, pool start-up, heater start-up & cleaning, aswell as all opening related chemicals with their package! Contact us today to sign up for our Platinum Package.

### **SALT CHLORINE GENERATORS:**

All salt systems will be plugged in by our technicians and set to 0% chlorine production. Customers should turn the cells on and adjust them to the appropriate percentage once the water has reached operating temperature of 65 degrees Fahrenheit. Please contact our office for assistance if required.

## IMPORTANT/WHAT TO REMEMBER:

- ✓ Water should be turned on prior to scheduled opening date
- ✓ Outside electrical breaker should be turned on
- ✓ For saltwater pools, Pool Craft will provide 4 bags of salt for you at \$12.99 plus HST per bag
- ✓ Pool Craft will add 2 bags to the pool and leave 2 bags on site. If you do not require salt you must specify this when booking the opening otherwise the salt will be added and the cost of salt will be added to your opening invoice
- ✓ All salt systems will be plugged in by our technicians and set to 0% chlorine production. It is the responsibility of the homeowner to set the chlorine production themselves to their preferred setting. If you are unfamiliar with this process, please contact our office for assistance
- ✓ For salt cells: Please do not adjust the chlorine production until the water temperature has reached a minimum of 65 degrees Fahrenheit

If anything is unclear or if you have questions, please don't hesitate to reach out to us by email at [service@poolcraft.ca](mailto:service@poolcraft.ca) or [meagan@poolcraft.ca](mailto:meagan@poolcraft.ca) or by phone **(905) 884-2720**. This includes scheduling any future service, openings, closings, or warranty- related matters for your pool equipment.

Interested in our **SERVICE PACKAGES**? Call (905) 884-2720 or reach out directly to Meagan by email [meagan@poolcraft.ca](mailto:meagan@poolcraft.ca) to sign up.

We'd like to take this opportunity to thank you for your continued business. Looking forward to another great season!

The Pool Craft Team
