

Thank you for choosing Pool Craft for your closing service!

No Need to be Home! Every pool closing is unique and can take varying amounts of times to complete. Upon arrival we will quickly get to work in your yard without disrupting your day. Please note: We appreciate that you may have questions about closing your pool. Providing any instructions at time of closing can be tricky for our team, as they have a tight schedule. Feel free to contact our office before or after your closing and someone from our management team will happily discuss any question you may have. We will email you 1-2 days before your scheduled opening as a reminder.

gold:

SERVICE	INCLUDED	NOT INCLUDED	NOTE:
Skim pool surface	✓		
Lower water level	✓		Salt Pools in Toronto are an exception

Salt cell cleaning		X	Additional service for \$45
Cartridge Cleaning		X	Additional service for \$150
Treat & Clear Algae before closing		X	POR
Winterizing Spill Over Spas		X	WILL be added for \$99

PLEASE BOOK ANY ADDITIONAL services you would like us to provide (e.g., pool vacuum, cartridge cleaning, etc.) prior to your appointment. This will ensure our crews show up prepared for your pool

PRIOR to your closing please ensure the following:

Before Check List

- BALANCE YOUR WATER:** Up to one week before your closing. If you PRE-BOOK our crews are happy to do this for you for an additional **\$125 + chemicals.**
- VACUUM YOUR POOL:** Ensure your pool is free from debris. If you pre-book our crews are happy to provide a **standard** cleaning for an additional **\$75** at time of closing. Please note: Heavy debris removal is an additional service call. If this cannot be removed with a standard clean, we WILL perform your closing service, however this may require a drain and clean in the spring.
- PARTS:** Please leave all your pool parts (winter covers, water bags, winter plugs, etc) out for our team.
- DRAIN YOUR GREEN TUBES:** If you have a sump pit (located beside your skimmer) it must be drained prior to closing. Closing a pool with an undrained pit may cause your liner to shift. HOW to do this can be found [HERE](#).
- YARDS: Gates need to be left unlocked the day of closing.** Please ensure the yard is obstruction free and you have cleaned up after your pet

Upon completion of the closing, you will be emailed a checklist summarizing your service.

SALTWATER POOLS – CITY OF TORONTO In Toronto, the sewer use bylaw (City of Toronto Municipal Code Chapter 681) sets the allowable limits for swimming pool discharge containing salt into storm sewers as follows:

SALT (sodium chloride) = NIL

Since rapid removal of salt water into storm drains is NOT allowed in the City of Toronto salt pool owners in TORONTO must lower the water just below the return jets prior to our arrival.

You are permitted to discharge the water the following ways:

- On the property/yard into the ground
- Into your septic/sanitary system (laundry sink etc.)

If you are unable to lower the water ahead of time Pool Craft can schedule a service call to set up a utility pump. Please contact the office for pricing.
